WHAT ARE CHILBLAINS?

Chilblains (also knows as pernia) are a common skin condition that occurs when the small blood vessels in the skin overreact to cold, damp conditions.

They most commonly affect fingers, toes, ears, nose and cheeks and may cause:

- Redness, swelling and itching
- Tingling or burning sensation
- Discolouration of the skin
- Soreness or tenderness

Chilblains are often seen in winter or during sudden changes from cold to warm temperatures.
